M PRO GAS FOR WELDING

PRO Gas Cylinder provides max heat output for efficient, fast soldering.

Flame temperature in air: 3,812°F/2,100°C

Ideal for

- Copper pipe soldering/brazing
- Automotive repair
- Rust removal

PRO GAS VS. PROPANE Work is completed most efficiently with the primary flame. PRO GAS fuel has more heat transfer in the primary flame than Propane.

FUEL	FLAME TEMP IN AIR	
PRO GAS	3,812°F	2,100°C
PROPANE	3,600°F	1,982°C

O OXYGEN-145 OXYGEN HAND TORCH CYLINDER

Provides a high-intensity flame that can cut thin steel, braze and weld. The Oxygen Cylinder is constructed of durable steel with a higher working pressure.

Applied into kit of OX70 & OX70P -- page:11-12

- M12*1 Thread
- PRESSURE: 110 bar at 20°C
- TEST PRESSURE: PH 165 bar
- NET WEIGHT: 145g 5oz

Packing: 233×157×337mm(6bottles/CTN)

PW 110 PH 165 BAR 0.95L
EN ISO 11118:2015
DO NOT REFILL

P PROPANE FOR HEATING / SOFT SOLDERING

The 400g propane cylinder is compatible with standard propane torches.

Flame temperature in air: 3,600°F/1,982°C

Ideal for

- Light heating/soft soldering
- Kitchen work
- Grilling
- Roof heating works

Packing: 460×160×280mm(12bottles/CTN)

P CAMPING GAS FOR OUTDOOR

The 453g lightweight universal tank fits all standard portable propane appliance.

Ideal for

- Outdoor activities
- Heating
- Grilling

Packing: 420×315×215mm(12bottles/CTN)

B BUTANE FOR COOKING

Wide compatible- For all portable butane stove or torch. Notched collar- Provides easy and correct alignment between canister and stove.

Automatically Reseal- Safe when removed from stove.

- Universal for portable butane stoves & torches
- Small heating jobs
- Bakery

Packing: 490×270×208mm(28bottles/CTN)

RTM Heating Torch

RTM extensive line of the Mapp gas torches and burners are idea for brazing & soldering & heating applications on the Plumbing, HVAC, automotive repair, hardware and DIY jobs. It is famous for extremely turbo flame design of the maximum heating. These include heavy brass inter-structure and anti-flash-back design that make the torch to be outstanding and safe to use.

HIGH HEAT TORCH

This high-heat torch delivers a powerful flame for professional soldering, enabling faster, more efficient work. 3 other torch tips for different applications.

Torch Model	RTM-030.115
Torch Tip Size	
	Φ11.5mm
Ideal For	A/C Welding
Torch Model	RTM-030.100
Torch Tip Size	
	Φ10mm
Ideal For	Plumbing
Torch Model	RTM-030.125
Torch Tip Size	
	Φ12.5mm
Ideal For	Roof Top etc.

PRO GASPROPANE

HIGH HEAT TORCH

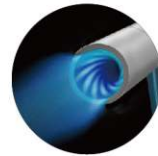

This high-heat torch boasts a swirl flame that remains stable even when inverted, delivering maximum heat output. It is ideal for a wide range of applications including soldering, heat-treating, auto repair, brazing, cooking, and woodworking.

- Instant ignition
- Auto Flame Lock
- Smooth Flame Regulator
- Ultra-heat swirl flame

RTM Brazing Kit

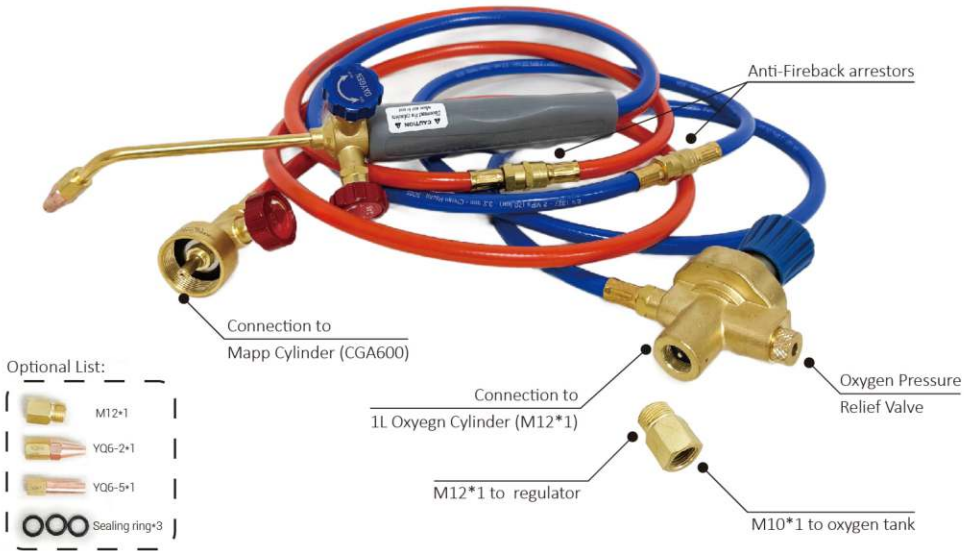

RTM mapp&oxygen lightweight & portable heavy duty torch kit features an adjustable flame and is perfect for cutting thin steel, brazing and welding. The advanced gas control system on handle makes it comfort and easy using. The built-in dual flashback arrestor design makes it safe on working.

MOT-044 Oxygen Torch

The Mapp & Oxygen torch kit with adjustable flame: ideal for brazing and light welding. Easy-to-use flame control knob on the handle for effortless operation.

- Precision valve for ultra-high temperature flame.
- Anti-flare and wind resistant design.
- Lightweight, replaceable and portable design for easy carrying.

The mapp & oxygen torch kit features an adjustable flame: Easy-to-use flame control knob on the handle.

The Mini Heavy-Duty Multi-function Torch is specially designed for commercial A/C pipe brazing.

- Designed for using oxygen with different kinds of fuel cylinders (MAPP/PROPANE/LPG).
- Anti-flare and wind resistant design.
- Equipped with a 4L oxygen cylinder, it reaches 5,432°F (3000°C).

Fits M16*1.5 connections.
Custom connections available.

RTM-052
Durable brass burn wand, independent fuel/oxygen controls & pressure regulation for consistent inverted performance

Portable welding & cutting kit: Includes 4L empty oxygen cylinder + 2L empty acetylene cylinder.

- Portable welding torch kit with 4L oxygen & 2L acetylene tanks.
- 4.5M*4.8mm with flame retardancy hose .
- Oxygen reducer of CGA540 inlet and 9/16"-18 outlet, and acetylene reducer of CGA200 inlet and 9/16"-18 outlet.
- Capable of welding from O.D. 1/32" up to 1-1/4" with the appropriate welding nozzle.
- Capable of cutting from 1/2" up to 3/4" with the appropriate cutting tip.
- Larger welding and cutting tips are sold separately.

RTM-051
Heavy-duty cutting tip for large-scale metal cutting projects

RTM-054
Plumbing, HVAC, Refrigeration, Auto Repair, Hardware

RTM Accessories

RTM's wide range of accessories makes heating, welding and cutting more convenient and comfortable in our life.

MAPP REDUCER

PG003A-1

- Compatible with 7/16" OR CGA600 MAPP fuel cylinders
- All brass material, and inlet 7/16" OR CGA600 and customized outlet thread
- Built-in flashback arrestor

PG003R-600

- Equipped with safety valve and flashback arrestor
- Designed to connect the CGA600 Mapp Gas Cylinder

PG003R-617

- Equipped with safety valve and flashback arrestor
- Designed to connect the 7/16" Mapp Gas Cylinder

OXYGEN REDUCER

PG004-1L

- Equipped safety valve + flashback arrestor
- Compatible with European 1L oxygen cylinders with the M12x1 inlet thread
- All brass material, and inlet M12*1 and customized outlet thread.

PG004-40L

- Equipped with gauge,safety valve and flashback arrestor
- Continuously reduce the pressure of the gas cylinder from 12~15MPa to 1~0MPa
- Brass material, and customized inlet and outlet thread

PG004G

- Equipped with gauge, safety valve and flashback arrestor
- Continuously reduce the pressure of the gas cylinder from 15~20MPa to 5~0MPa
- Brass material, and customized inlet and outlet thread
- Designed to connect the Europe 1L oxygen with the M12*1 inlet thread cylinder

OXYGEN REDUCER WITH GUAGE
PG0041LG-KR

- Only for Korea
- Equipped with gauge,safety valve and flashback arrestor
- Connection Port Specification: M16x1.5
- Lower Interface: W23-14
- Continuously reduce the pressure of the gas cylinder from 15~20MPa to 1~0MPa

LPG REDUCER WITH GUAGE
PG003ALPG-KR

- Only for Korea
- Equipped with gauge,safety valve and flashback arrestor
- Connection Port Specification: M16x1.5
- Lower Interface: External Thread-7/8-14 LH UNF 2A
- Continuously reduce the pressure of the LPG cylinder from 4~5Bar to 1~0Bar.

**HEAT REFLECTOR GUARD
L-70H**

- Help to contain and concentrate heat during soldering&brazing
- Protect nearby surfaces from heat related damage

- Stainless steel curved protective guard
- Locking wingnut
- Suits for all the RTM MAPP torches.

**FLAME SPREAD HEAD
L-80H**

- Paint removal
- Flame spread for cooking and camping
- Flat area soldering
- Suits for RTM torch model WT-1

**SPARKER LIGHTER
L-90H**

- Effortless, fast ignition for manual-start torches/appliances
- Replaceable flints for long-term reliability

WELDING MAT

- Prevent burn damage when soldring or brazing
- Reducing the risk of damage to surrounding area
- Size: 20*30cm or 25*25cm
- Withstands 3,812°F (2,100°C) flame for over 1 minute.

**WMT-2030B
WMT-2525B**

- Pre-oxidized fiber material
- Resist Up to 1,000°C

**WMT-2030
WMT-2525**

- Fibreglass material
- Resist Up to 1,100°C

SAFETY GOGGLES

- Core optical density: OD10+
- Shields against stray laser light of 10,000W+
- Multi-band coverage: OD10+ rating across key wavelengths 180-540nm and 730-25,000nm
- Meets the standards of ANSI Z136.1 and EN207

22.5" DEEP-BASE BARBECUE GRILL

- Air damper plate: Precise thermal control, with ease Adjusting the air damper helps the charcoal burn
- Thermometer: The temperature can be checked at any time
- Ash collector: Charcoal and debris can be easily removed
- Convenient storage rack: The bottom provides ample space and saves your barbecue tools

BRAZING ROD

The product is used to braze copper and brass, and can braze joints with wide gaps. It is widely applied in air-conditioning and refrigeration industries.
